

Every day, I see women taking control of their future because MSI opened a door for them. Because of your bold support, they have choice. Thank you for making choice possible and changing the lives of women and girls around the world.

**– Inonge Wina-Chinyama
Youth Advisor, MSI Zambia**

MSI provides women and adolescent girls around the world with reproductive choice through access to quality contraception and safe abortion. We work in 37 countries across six continents, where we empower women and girls to make their own choices about their bodies, lives and futures. More than 32 million people worldwide are using contraception from MSI, and our services prevented 13.1 unintended pregnancies in 2019 alone.

MSI United States is a 501(c)(3) organization supporting MSI's work worldwide through donations from generous US supporters and partners. With the help of our US supporters, MSI will continue to provide contraception and safe abortion for women and girls around the globe, as we have for more than 40 years.

ANNUAL REPORT 2019

Country Stories

Burkina Faso

US donors supported new ways of reaching adolescents in Burkina Faso. In partnership with IDEO.org, we launched a human-centered design initiative to reach more married, rural 15-19 year-olds. The result was a board game, La Famille Idéale, that guided honest conversations about sex—and over six months using the game, our teams in Burkina Faso saw more than 5,000 adolescents!

Ethiopia

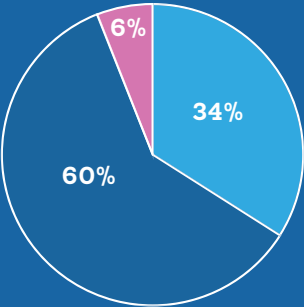

MSI in Ethiopia self-generates 40% of its income—and last year, we used that profit to fund six outreach teams to serve internally displaced persons camps. The teams reached thousands of women with contraception and safe abortion care, sustainably meeting an urgent humanitarian need.

Nepal

US donors helped bust myths about sexual health in Nepal, where MSI supports a popular weekly radio show that answers young people's questions about sex. Two million listeners tune in every Friday night, connecting adolescents to the information and services they need.

With your help, we'll be here for the long term

2019 INCOME BY TYPE

- DONOR INCOME
- SELF-GENERATED INCOME
- OTHER INCOME

Our Impact

MSI made choice possible around the world in 2019, providing contraception and safe abortion care in some of the poorest and most hard-to-reach communities.

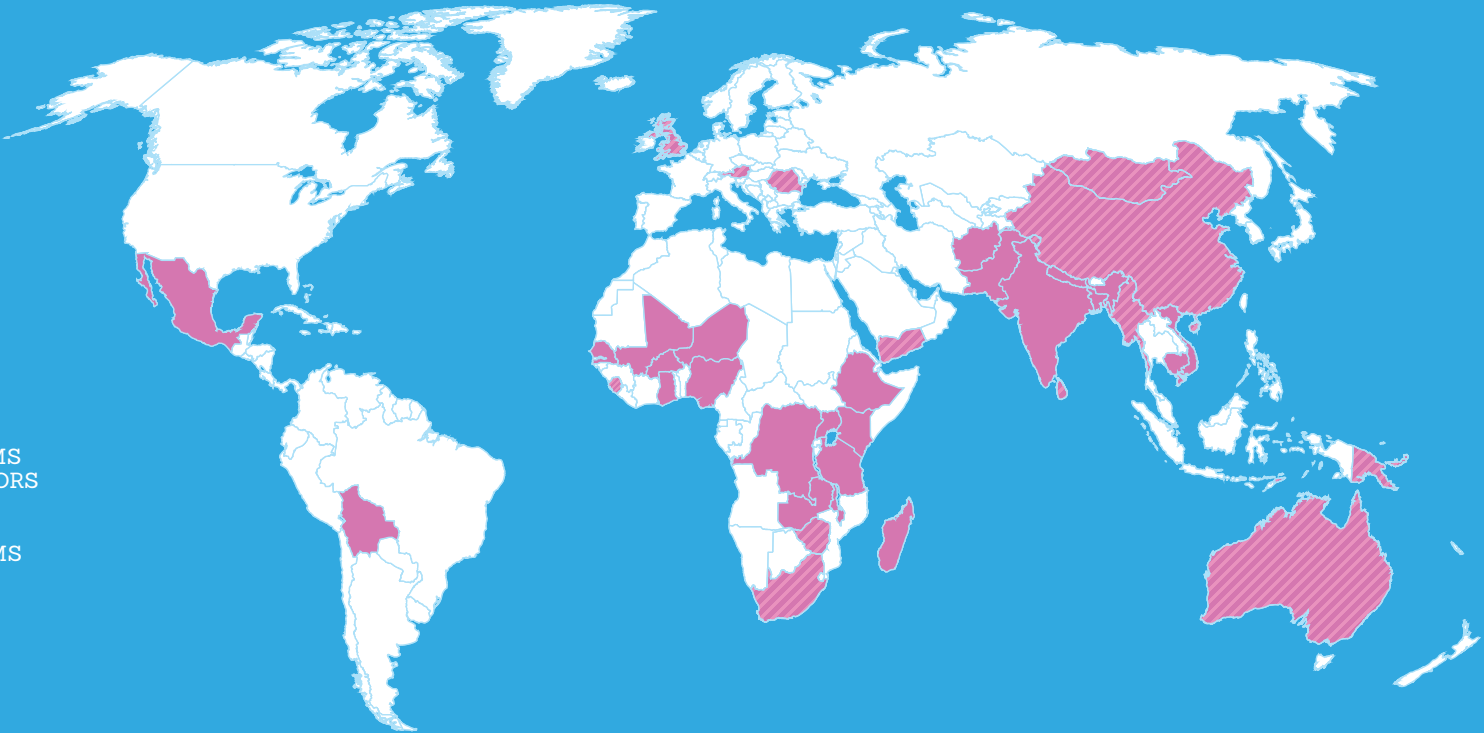

14 MILLION clients served
That's more than **38,000** people every day

Our Reach

US donors helped deliver reproductive choice directly to women and adolescent girls in 28 of MSI's 37 country programs.
